

ROTASOL 360

The Rotasol is a unique sun lounger designed to revolutionize how we enjoy the sun. Its unique characteristics in design and functionality sets the Rotasol apart from any other lounger in the market and will ensure that the Rotasol will become a global product.

Suitable to be situated around the garden or pool, the Rotasol will give maximum comfort and reduce maintenance. The construction of the Rotasol ensures that even in the harshest weather conditions the Rotasol will stand up to the environment. Should it be necessary to put it into storage, the Rotasol lifts and can be pulled on the two wheel conveniently place underneath making movement easy.

The Rotasol also provides Hotels and Resorts the opportunity to provide a high end product for its guests, the Rotasol looks and feels like a premium product that will compliment the ambience and surroundings of the Hotels and Resorts pool, garden and beach areas.

The functionality embedded into the design will prove a success with anyone on holiday. The recesses, designed to hold drinks and phones ensures users never have to move to reach their belongings.

The Rotating base will ensure that facing the sun no longer requires effort, with Rotasol by simply releasing the locking mechanism the Rotasol is free to swivel in any direction without moving from its located spot, this functionality ensures that if required the Rotasol will always face the sun.

Security of valuables and belongings are also considered in the design of Rotasol by providing a secure locking storage areas under the lounger, with adequate space for general belongings and valuables. Once securely stored using the patented locking system the Rotasol is closed up and valuables are protected until the client returns.

Hotels, beaches and leisure parks can benefit from a rental revenue by hiring the Rotasol out to visitors to the facility. The combined comfort and security aspects of the Rotasol over its competitors will prove attractive to all that have the opportunity to spend time on one.

Revenues potential depending on regions can range from \$15.00 - \$35.00 per day giving a payback for the Rotasol in under 50 days. With a 24 month guarantee this revenue after initial cost could be as much as \$12,000 per bed over the 24 months. In some high populated beaches and leisure parks this could be a strong revenue stream.
